Hosted 3CX Advantages

Offer a complete communication solution that's fast to deploy, cost-efficient and comes with advanced features:

Connect from anywhere

- Make and receive calls from anywhere.
- Use your office number to take calls on mobile apps for iOS and Android.
- Easily monitor inbound calls and chats from anywhere.

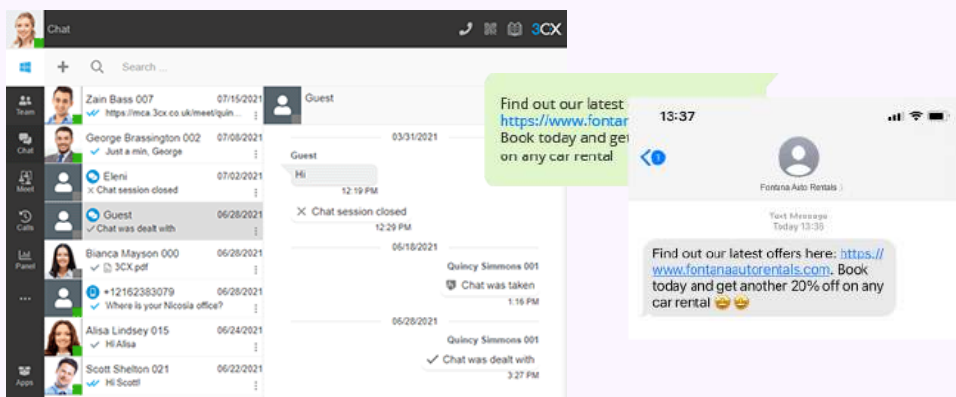

Never miss a call

- Queue incoming calls to specific colleagues or group.
- Call back option to manage overflow during peak times.

Ensure customer service quality

- Train agents during a live call with Listen in and Whisper.
- Integrate with your CRM to know who's calling and to personalise automated greeting.

Unified interface for calls, live chat & messaging

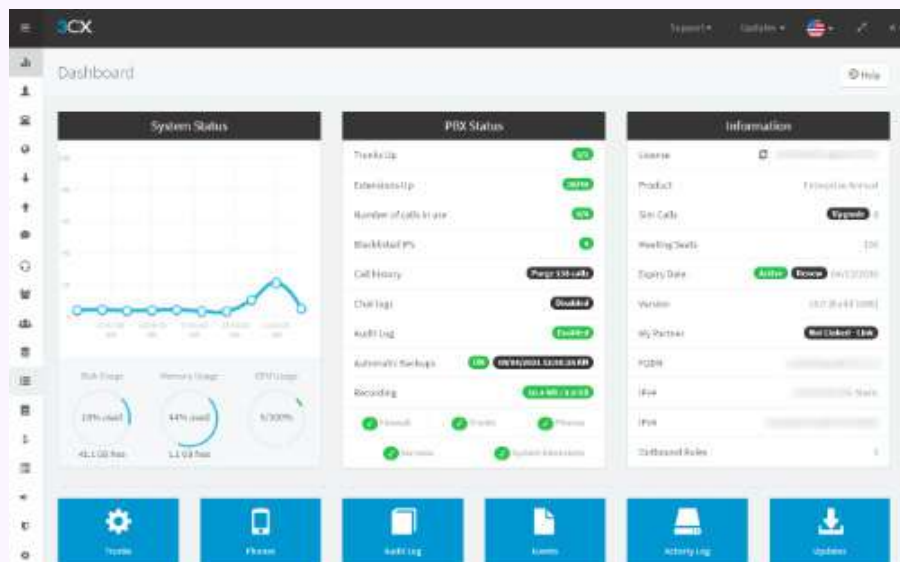

- Add live chat to your website and connect with website visitors in real time.
- Customise your chat box to match your business' brand and needs.
- Explain better by elevating a simple chat to a phone call in one click.
- Customers can call free from the website. No need to copy and paste numbers.

Convenient video conferencing

- Included with 3CX, at no additional cost.
- Simple to create, host and join a meeting.
- Participants can join from their browser. No need to dial numbers or download any video apps.
- Customers can call in or join through your own personalised 3CX Meet link.
- High-quality (HD), real-time video guaranteed by Google's WebRTC.
- Collaborate better by sharing documents, allowing chat and polling.
- Give hands-on troubleshooting & training with remote screen control.

Efficient reporting capabilities

- Monitor agent performance with the built-in reports.
- See longest wait time and abandoned calls.
- Get reports on SLA and call-back statistics.
- Switchboard / wallboard for real-time monitoring of queues.
